About the ACMS

The American College of Mohs Surgery (ACMS) is a membership organization of more than 1,600 fellowship trained skin cancer and reconstructive surgeons specializing in the Mohs micrographic surgical technique used to treat skin cancer. The ACMS serves as the voice of the specialty, promoting and advancing the highest standards of patient care through fellowship training, research, education and public advocacy.

The ACMS was founded in 1967 by Dr. Frederic E. Mohs, who pioneered a highly specialized and precise technique that removes skin cancer in stages, one tissue layer at a time, resulting in minimal damage to the surrounding healthy tissue and the highest potential cure rate, at 99%.

The ACMS is the only organization that requires its members to have successfully completed an extensive one- to two-year fellowship training program in Mohs micrographic surgery after they have completed their years of dermatology residency training. Members also perform other dermatologic surgery procedures such as: skin resurfacing, microdermabrasion, botulinum toxin injections, laser surgery, sclerotherapy, fillers, liposuction, skin rejuvenation, and use of facial and skin tightening devices.

About the ASMH

The ASMH is a group of 400+ histotechnicians who are specifically trained to process the slides used to determine the amount of tissue removed during the Mohs procedure. In order to be a member of the ASMH, the technician must be employed by an ACMS member. They are a vital part of the surgical process and are essential in successful surgical outcomes.

Invitation to the 2020 ACMS/ASMH Annual Meetings

Join Us

The American College of Mohs Surgery (ACMS) and the American Society for Mohs Histotechnology (ASMH) invite you and your company to partner with them for the 2020 Annual Meetings to be held at the Gaylord Opryland Resort in Nashville, Tennessee.

The ACMS Annual Meeting is an important continuing medical education event in dermatologic surgery designed primarily for the 1,600+ members of the ACMS. The ACMS is the oldest and largest membership organization for Mohs micrographic surgeons, with 80-90 new surgeons joining the College each year after completing a one- to two-year approved fellowship.

We are proud that nearly 100% of these physicians join the ACMS the same year they complete their training and that 99% of our members renew their membership each year. ACMS members are required to attend at least one Annual Meeting every three years to remain a member. Many dermatological leaders nationwide are ACMS members, and three of the last five American Academy of Dermatology presidents have been members of the ACMS. All the fellowship training programs are directed by ACMS members, giving your company access and influence with young dermatologists.

At the 2019 ACMS Annual Meeting, 1,200 members, fellows-in-training, surgical assistants, and non-member physicians made time to attend. As always, we are pleased to offer several opportunities for exposure to your company's products and services at this meeting.

The ASMH Annual Meeting enhanced the expertise of the nearly 240 histotechnicians who attended in 2019. These technicians work as assistants in most ACMS member practices, making this the best meeting to reach influential office staff.

Your company's presence in the combined exhibit hall of both medical organizations will provide an opportunity to be exposed to all meeting attendees. The meeting size allows each company to develop personal relationships, and the meetings attract new attendees. We promise to do our best to make this a worthwhile experience for your company and our members.
