Thank you for participating in this process. Your efforts to provide a quality training program in Mohs surgery are greatly appreciated. As you know, the site survey is an important part of the program review process. However, the site survey report must be reviewed by the Fellowship Training Committee (FTC) and SISRB Board of Directors before a decision is made regarding approval of a new program or continuation of a current Fellowship Training Program. The site surveyor's opinion regarding the program does not automatically imply approval or denial by the SISRB. On occasion, the FTC may contact you regarding additional information after the site survey. After a decision has been made by the FTC and Board of Directors, you will be notified of the decision regarding your program.

I agree to maintain in confidence and not disclose to, or discuss with, any other party any statements or decisions made by the FTC or site visitor or otherwise any information regarding part of the application review or site visit, other than whether the application or program has been approved. This agreement applies both to new applications for approval and continuations of approval by the SISRB.
